

ANTIVIBRANTI A CAMPANA

TITAN
SUPPORT SYSTEMS

ANTIVIBRATION DAMPERS / PLOTS ANTIVIBRATOIRES

Antivibranti a campana in gomma naturale composti da: [1] struttura metallica in acciaio zincato, [2] corpo elastico interno in gomma naturale disponibile in 3 durezza, adatto per temperature di impiego da -20°C a +90°C, [3] cuscinetto superiore in elastomero colorato che identifica la durezza del corpo interno. Ottimo comportamento elastico, elevata resistenza all'abrasione e all'invecchiamento.

[EN]

Anti-vibration bell mounts dampers made of natural rubber with galvanised metal structure, elastic element in natural rubber available in 3 types of hardness, suitable for use in temperatures between -20°C and +90°C and pad in coloured elastomer. Excellent elastic performance, high resistance to abrasion and ageing.

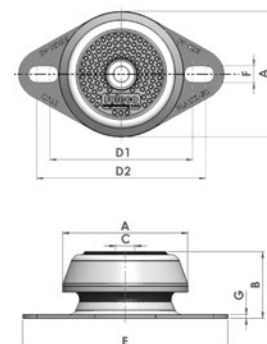

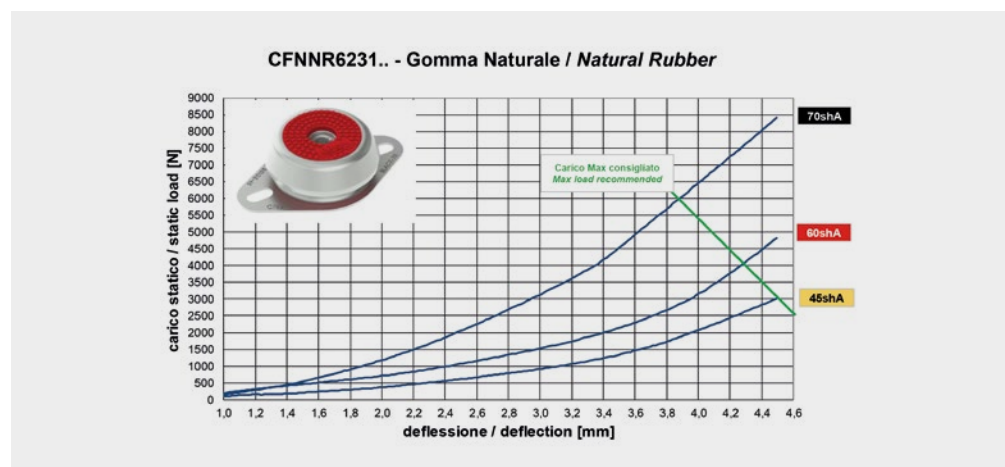

[FR]

Plots antivibratoires à cloche en caoutchouc naturel, composés d'une structure métallique en acier galvanisé, d'un corps élastique interne, disponible en 3 duretés différentes, tampon supérieur en élastomère coloré pour identifier la dureté. Adaptés aux températures de -20° à +90°. Excellente élasticité, résistance élevée à l'abrasion et au vieillissement.
